FEATURES & BENEFITS

- Designed to meet the requirements of EN54-3

- Provides high reliability and error detection

- Short circuit isolators in each device

- Large capacity, up to 240 devices per loop

- Addressable via VPU100 programmer

- Auto addressing capability (Control panel feature)

- OEM password protection

- High power availability from loop (>98%),

- Digital checking of double address

- Line quality information

SPECIFICATION

Wall mounted Vega analogue device designed around a fully digital protocol.

Compact design, lockable base. Key supplied.

Synchronized start.

Versatile UK & European fire tones.

The device provides a wide-angle uniform sound distribution providing good audibility in all directions.

Low power consumption .

Suitable for multistage alarm application.

Double back entry for simplified installation.

Available in red or white.

TECHNICAL SPECIFICATIONS	
Power Supply	15-40 V
Current Consumption	5mA
Operating Temperature Range	-30°C / +70°C
Humidity (non condensing)	95% RH
Alarm Tones (5) (1)Alternating 990 & 650Hz at 2Hz (250ms 250ms) (2)Continuous 990Hz	(3)Intermittent 990Hz at 1Hz (500ms ON / 500ms OFF) (4)Slow whoop 500Hz to 1200Hz (3.5s sweep, 0.5s silence then repeat (5)Sweep1200Hz to 500Hz at 1Hz (DIN tone)
Dimensions	106mm x 106mm x 91mm
